

Free Music Resource

Posted by Eric Matyas - 29 Sep 2015 09:01

Hi everyone,

I've got a site up with free music for films, games and other media:

soundimage.org/

It's all original music...all my own stuff. All I ask is to be credited as indicated on my homepage.

I sincerely hope my tracks are helpful. Any and all feedback is welcome and always appreciated.

All the best,

Eric

Eric was recently able to produce some high quality 48Khz custom mixed .wav files for me. My tracks were based on his current stock material but individually lengthened and re-recorded to suit my film's specific requirements.

It was great to be able commission and quickly receive separate background and melody tracks from across the other side of the world and all for a very reasonable price too!

Happy New Year!

I've begun the process of creating looping versions of my Fantasy and Sci-Fi tracks, starting with the oldest ones. The links to download the looping versions appear right under the original versions.

I hope this will be especially helpful to my game developer friends! ^o
If you happen to want any of my newer tracks looped immediately, send me an email and I'll see what I can do.

For those of you who don't know, I post daily updates of new tracks here:

www.facebook.com/soundimage.org

twitter.com/EricMatyas

And playlists of my tracks are here:

www.youtube.com/channel/UC6m...Gy-A/playlists

This week's new releases are:

"Moonlight Flying"_Looping (on the Fantasy Page)

soundimage.org/fantasywonder/

"The Darkness Below"_Looping (on the Sci-Fi/Space page)

"World of Automatons"_Looping (on the Sci-Fi/Space Page)

"Once Around the Solar System" (on the Sci-Fi/Space Page)

soundimage.org/sci-fi/

“The 8-Bit Princess” (on the Looping Music Page)

soundimage.org/looping-music/

All the best,

Eric

Hi everyone,

I had to split up some of my genres (like Fantasy) so they now span multiple pages. This was done in order to improve performance of the site and (hopefully) make hunting for tracks a bit more manageable. If you have any problems finding anything, just let me know.

That said, this week's new tracks are:

“Vast Places” (on the Quiet/Peaceful/Mellow Page)

soundimage.org/quiet-peaceful-mellow/

“They're Closing In” (on the Dark/Ominous Page)

soundimage.org/dark-ominous/

“Surreal Chase”_Looping (on the Fantasy Page)

“Bedtime Story”_Looping (on the Fantasy Page)

soundimage.org/fantasywonder/

“The Creeping Blob”_Looping (on the Sci-Fi/Space page)

“Security Breach”_Looping (on the Sci-Fi/Space page)

soundimage.org/sci-fi/

I've just cut and delivered seven short promos in seven days using Eric's music tracks: <https://www.youtube.com/user/ozsteam>

Great resource! The clips were all cut and mixed in LW then finished off in Resolve.

EDIT: Make that 13 clips and counting!

Hey Eric, you've got some great stuff here, and we would love to use some in the future in our videos. We've just got a question regarding the accreditation (which we might as well post here rather than through direct message, as others might ask as well). We post videos on youtube and credit the music in the description of the video (as we often use music from the youtube audio library and some of their music explicitly asks for credit to be given in the description). Are you okay with your accreditation being listed in the video's description, or does the 'credit screen' have to be part of the video your music is

used in?

Thanks!

Hey Grim,

Thanks for checking out my work...I appreciate it!

Please be sure to credit me in the actual video since viewers don't always read the description. (If you want credit me in the description in addition to the actual video, that's fine as well.)

Feel free to let me know when your videos come out...I love to see how creative people are using my music!

All the best,

Eric
