

Free Music Resource

Posted by Eric Matyas - 29 Sep 2015 09:01

Hi everyone,

I've got a site up with free music for films, games and other media:

soundimage.org/

It's all original music...all my own stuff. All I ask is to be credited as indicated on my homepage.

I sincerely hope my tracks are helpful. Any and all feedback is welcome and always appreciated.

All the best,

Eric

Hi Craig

Can you tell me which song you used for this video because I like it and also want to use it in a travel video that I'm editing at this moment.

Can you also tell me in which section to search for on Eric's website?

Thanks

That piece is called "Slick Streets" and it's on this page: soundimage.org/city-urban/

Glad you like it!

Yes, Slick Streets is a sexy track and I've used it before. If you look through my Channel, you'll find a dozen or so short clips that I cut about 2 years ago. They are all travel related and are cut to Eric's 'Tunes'. I'm working on a longer doco on Taiwan now where I commissioned Eric to make some specific versions of certain tracks for me and deliver them as high quality .wav files.

Thanks both of you.

I downloaded about 20 tracks from Eric's site and I'm trying out which songs suites the best for my 18 min travel video.

Craig, I already saw some of your Train video's. I like those because modeltrains was my hobby in the past.
