

Free Music Resource

Posted by Eric Matyas - 29 Sep 2015 09:01

Hi everyone,

I've got a site up with free music for films, games and other media:

soundimage.org/

It's all original music...all my own stuff. All I ask is to be credited as indicated on my homepage.

I sincerely hope my tracks are helpful. Any and all feedback is welcome and always appreciated.

All the best,

Eric

Greetings,

Here are this week's new tracks. Free to use with attribution:

MAGICAL BACKSTORY – (Looping) – This might sound nice under the menus, backstory, etc., in a mystical fantasy game, RPG or maybe a visual novel.

soundimage.org/fantasy-8/

DRIFTING AWAY IN PUZZLE LAND – (Looping) – Sometimes...(actually lots of times)...I wish I could do just that. Anyhow, this is a variation of one of my other themes.

soundimage.org/puzzle-music-4/

FUTURE FUNK – (Looping) – Here's a grungy looping piece with a mechanical feel and a funky vibe that might sound cool in a sci-fi game of some kind.

soundimage.org/dance-techno/

Enjoy!

Happy May!

Here are this week's brand new music tracks. Free as always to use with attribution:

On my City/Urban 2 page, we have:

SAFE CRACKING – (Standard and Looping) – This piece might be fun in a crime-based game or film. (2:19)

soundimage.org/city-urban-2/

On my Puzzle Music 4 page:

GAME WORLD BUILDERS – (Looping) – Here's a track that's kind of mechanical sounding and dreamy at the same time. Perhaps for a construction-based puzzle game? (:57)

soundimage.org/puzzle-music-4/

And on my Sci-Fi 7 page:

ENEMY INFILTRATION – (Looping) – This track has a grungy techno feel and might sound cool under interior battle scenes or other things. Maybe aboard a star cruiser? Or in an alien city? (1:32)

soundimage.org/sci-fi-7/

Enjoy!

Another super busy week...ugh...but I did manage to get a couple of new tracks done. Free as always to use with attribution:

On my Horror/Surreal page, we have:

CREEPY ACTION – (Looping) – This track might sound cool in a quick moving horror game...or perhaps something else that combines action with creepiness. It came out pretty well...if you need something like this, give it a try.

soundimage.org/horrorsurreal/

On my Puzzle Music 4 page:

CRYSTAL PUZZLES – (Looping) – This track might sound nice in, well, a puzzle game involving crystals...or perhaps other shimmering objects, light rays, etc. It has a techno feel to it as well. Should sound pretty cool under sound fx.

soundimage.org/puzzle-music-4/

Btw, if anyone happens to have kids (or know someone who does) I've created a learning series that teaches them environmental stewardship in a fun way through stories and characters. It was my first try at making films with a DSLR...(they can be very challenging to work with in the field)...but I think they came out pretty well. The organization I made them for was very happy with them and uses the films all the time...hopefully others can benefit from them as well. Please feel free to share with teachers, family, friends or anyone you know who might find them useful.

soundimage.org/dunes-island/

Enjoy!

Greetings Earth People,

This week's new music tracks are:

On my Sci-Fi 7 page:

"INVASION!" – They're heading this way! Run for your life! Aliens? Zombies? Slimy monsters? Something else entirely?

soundimage.org/sci-fi-7/

On my Funny 6 page:

“PARTY GHOULS” - Rockin' it in their haunted party mansion. This track might be fun in a goofy Halloween-themed game or something like that.

soundimage.org/funny-6/

And two tracks on my Positive / Upbeat page:

"OF SUMMERS GONE BY" – Here’s a high energy 80’s-style piece with a sweet, slightly magical feel that might sound nice in a game, video or perhaps something else.

CAREFREE DAYS AT PELICAN SHORES – Carefree and creative...bouncing around town without a worry in the world. Wouldn’t that be great?

soundimage.org/positive-upbeat/

All are free to use, as always, with attribution.

If anyone has kids or younger siblings, I've created a fun environmental learning series that (I hope) will engage them through stories and characters. The organization I made it for uses the films all the time, and I'm sharing them with the rest of the world. Please feel free to check them out and share with friends, parents, teachers or anyone else who might find them helpful.

soundimage.org/dunes-island/

Keep being creative and have a good weekend!

Hi everyone,

Here’s a brand new music track for you:

On my City/Urban page:

ON THE PROWL WITH CAPED CRUSADER CAT – Wandering the midnight streets, searching for wrong-doers.

soundimage.org/city-urban-2/

I'm also working to build up the ambience section of my site...so here are some cool new ambiences on my AMB - Sci-Fi Ambience page:

MACHINE DREAMS – I wonder what it's dreaming about? This might sound nice to create an eerie, weird-feeling environment or situation.

MYSTERIOUS AMBIENCE – This one might work for an alien underwater environment...or perhaps something else.

soundimage.org/amb-sci-fi-ambience/

If you find my work helpful, please consider making a donation to my website. The synthesizers I use to create the music and sounds that I share with everyone are very expensive...so expensive, in fact, that I have to make monthly payments on them...and donations really help me a lot to pay for them. Thanks in advance...and please feel free to share your projects...I love to see how creative people are using my work!

Happy Thursday!

This week's new music tracks are:

On my Dark / Ominous 2 page:

"MORE SEWER CREEPERS"– Ah, so that's why the houses in this neighborhood are so cheap. soundimage.org/dark-ominous-2/

“UNDERGROUND GOINGS-ON” – Perhaps under a city? Or in a network of creepy caves? soundimage.org/dark-ominous-2/

On my Funny 6 page: “QUIRKY GOBLINS” – (Looping) – Quietly getting up to their goblin-y mischief. soundimage.org/funny-6/

**If you find my work helpful, please consider making a donation to my website. The synthesizers I use to create the music and sounds that I share with everyone are very expensive...so expensive, in fact, that I have to make monthly payments on them...and donations really help me a lot to pay for them. Hi everyone,

Here's a brand new track on my puzzle music 4 page:

“ELECTRIC RAINDROPS” – (Looping) – Perhaps for a quiet, methodical puzzle with a hint of mystery (and quirkiness.)

soundimage.org/puzzle-music-4/

Continuing to build up the ambience section of my site...(which is in dire need)... here are some more new ambiences on my AMB - Sci-Fi Ambience page:

“MIDNIGHT CYBER STREETS” – For a creepy, deserted nighttime situation perhaps.

soundimage.org/amb-sci-fi-ambience/

“FAILING GRID” – Perhaps in a dystopic cyber world.

soundimage.org/amb-sci-fi-ambience/

As always, if you happen to use my work in your project, send me a link...I'd love to see it!

Daily updates are here as I release new assets:

Greetings,

I've decided to begin expanding the sound effects section of my website (which desperately needs it) so if anyone has any requests, just let me know.

One request that I received on social media is for various coin sounds, so here's a brand new page devoted to that:

SFX - Coins

soundimage.org/sfx-coins/

As always, feel free to edit as needed.

Enjoy!

Hey guys,

I've got some cool new music ready for everyone. Free to use with attribution:

On my Dark / Ominous 2 page:

MIDNIGHT MIST – What lurks in the mist? Muah hah hah!

soundimage.org/dark-ominous-2/

On my Sci-Fi 7 page:

CROSSING THE LIGHT YEARS – This might work under the intro to a space-themed game or project.

soundimage.org/sci-fi-7/

And on my Technology 2 page:

DIGITAL DAYDREAMS – Maybe one day machine-beings will daydream...I wonder what it will be about.

soundimage.org/technology-2/

Enjoy!

Greetings everyone,

New free music is ready for you here:

On my Fantasy 8 page:

“THE BOG OF DESPAIR”

soundimage.org/fantasy-8/

On my Fantasy 9 page:

“CHILLY WHISPERS”

soundimage.org/fantasy-9/

And on my Sci-Fi 8 page:

“A DESERT ON A DISTANT WORLD”

soundimage.org/sci-fi-8/

100% free to use with attribution.

**If you find my music helpful, please consider making a donation to my website. The synthesizers I use to create the music and sounds that I share with everyone are very expensive...so expensive, in fact, that I have to make monthly payments on them...and donations really help me a lot to pay for them.
