

## Free Music Resource

Hi everyone,

I've got a site up with free music for films, games and other media:

[soundimage.org/](http://soundimage.org/)

It's all original music...all my own stuff. All I ask is to be credited as indicated on my homepage.

I sincerely hope my tracks are helpful. Any and all feedback is welcome and always appreciated.

All the best,

Eric

Greetings!

I've had a number of requests for uncompressed versions of my tracks, so I've begun making them available on Gumroad for a small fee to help support the site. The MP3 files that I make freely available sound very good, but the original uncompressed WAV files sound really incredible...give them a try!

If anyone is curious as to why I didn't upload WAV files to begin with, the reason is that my web hosting service places limitations on file sizes and WAV files tend to be very large.

Anyhow, it's going to take some time to upload everything, so if anyone has any requests for WAV versions of tracks you happen to like, just drop me an email and I'll upload them to Gumroad for you. Feel free to convert to Ogg or any format you like.

That said, this week's new free tracks are:

On my Sci-Fi 8 page:

EMERGING ALIEN CIVILIZATIONS – (Looping) – As they become industrialized, hopefully they won't make the same mistakes we have.

[soundimage.org/sci-fi-8/](http://soundimage.org/sci-fi-8/)

And on my AMB - Urban Ambience page, more large city street ambience:

STREET CORNER\_M-30 – Traffic, distant sirens, pedestrians, someone whistles, trucks passing, talking, horns, etc.

STREET CORNER\_M30\_2 – Noisy traffic passes, pedestrians, talking, distant brakes squeak, etc.

Enjoy!

### OGG MUSIC UPDATE:

Super high-quality Ogg files are now available for every track on my Fantasy 1 page as well as my Sci-Fi/Space page. And for about half of the tracks on my Looping Music page and my Horror/Surreal

page. They sound amazing...almost as good as uncompressed WAV files...give them a try if they work in your projects.

Meanwhile, if anyone has requests for Ogg versions of tracks that you happen to like but aren't on the site yet, just let me know and I'll be happy to upload them for you.

That said, I have a couple of brand new free tracks ready:

On my Funny 6 page:

SEWER SHENANIGANS – (Looping) – Maybe for humorous monsters underground...or funny criminals up to who-knows-what down there.

[soundimage.org/funny-6/](http://soundimage.org/funny-6/)

On my Puzzle Music 4 page:

CYBER LIGHT CHASE – (Looping) – Perhaps for a faster-paced puzzle game? Or maybe something else?

[soundimage.org/puzzle-music-4/](http://soundimage.org/puzzle-music-4/)

Enjoy!

### OGG MUSIC UPDATE:

All of my music tracks on my Horror/Surreal page can now be downloaded as very high-quality Ogg files. Halloween's not too far off, so I'll try to create more creepy music tracks this month.

I had a super busy week creating original music for some indie projects, but I managed to get a few new free tracks done for everyone:

On my Fantasy 9 page:

MELANQUIRKY HOLLOW – (Looping) – Here’s a strange little piece that combines melancholy with quirkiness. Perhaps for humorously sad inhabitants of a fantasy village who stumble around drunk all the time? This one definitely falls into the “I’d be very interested to see what someone uses this for” category...lol.

[soundimage.org/fantasy-9/](http://soundimage.org/fantasy-9/)

On my Urban Ambience page:

STREET\_R29 – General street ambience. No foot traffic. Truck passes. Distant brakes.

STREET\_E30 – General street ambience. No foot traffic.

[soundimage.org/amb-urban-ambience/](http://soundimage.org/amb-urban-ambience/)

Have a good weekend!

Greetings!

This week's new music tracks are:

On my Puzzle Music 5 page:

“LIGHT DROPS” – (Looping)

[soundimage.org/puzzle-music-5/](http://soundimage.org/puzzle-music-5/)

On my Sci-Fi 8 page:

“STRANGE THINGS” – (Looping)

[soundimage.org/sci-fi-8/](http://soundimage.org/sci-fi-8/)

And on my Techno page:

“BLISSFUL TRANCE” – (Looping)

[soundimage.org/dance-techno/](http://soundimage.org/dance-techno/)

Ogg Music update:

All of the tracks on my first Puzzle Music page are now available as super high quality Ogg files for a very small fee. It's a cool way to support my work and my site. I hope some of them are helpful!

As Halloween approaches, I thought I'd focus this month on creating new tracks that might be useful in Halloween-themed projects (or horror, etc.)

That said, all of this week's new tracks are on my Horror/Surreal Page:

SHATTERED MIND – Surreal and disturbing, this could be used in all kinds of nightmarish things I'm sure. Easy to loop as well.

WELCOME TO THE MANSION – A haunted mansion that is. Muah hah hah!

SHATTERED REALITY – Another surrealistic piece. Might sound cool in a sci-fi project, too.

All of my tracks are 100% free to use with attribution. Enjoy!
