

First attempt! Feedback greatly appreciated

Posted by noalbalint - 28 Feb 2016 03:55

As stated in title, I just got this today and here is something I made with a free sample from a website that provided video editing clips for practice (editstock.com).

Let me know what you think! Just the editing please, as the content is not mine.

Seems like a good way to learn. I see the site also has sound effects for free download.
