

Learning to use Lightworks

Posted by geomcd1949 - 31 Mar 2016 18:09

youtu.be/0oAsSY1UPXk

First fumbling attempts. Savage 'em if you will! Lightworks is a spectacular program. Music is by Eric Matyas, who made it available by this post:

I watched the video. Even though there are opportunities for speeding up editor operations, this is a pretty good tutorial. It shows each step in a manual mode. Rather than click the "add keyframe" button after changing a parameter, I hit "enter".
