

## Paragliding in France

Posted by brdloush - 16 May 2016 14:47

---

Hey there!

It's been quite a while since I posted some paragliding video here. So here's yet another video - this time from a few french spots. The best of them was Mieussy (near Mt. Blanc) where me and my friends managed to fly some lovely 60-80km flights, spending up to almost 6 hours in the air. Altitudes around 3500m above sea level and absolutely gorgeous sights of still-snowy mountains.. what more can you wish for? 😊

Enough chitchat, here's the video:
