

Problem with Export!

Posted by nina_marie - 22 May 2016 12:27

Hi!

I haven't used lightworks in quite a while, i also had to reinstall the programm because i couldn't open it anymore.

Lighthworks itself works again now (thank god) but i'm having a problem with the export! every time i try to save a video i get this message!

Please help me 😊

With Lightworks Free it's not possible to export to Vimeo (1080p) without valid login details of an existing Vimeo account (username, password).

If you want to keep the exported file on your computer try to export to Youtube (720p) instead.
