

Help Me

Posted by Lilbuilderaj - 03 Aug 2016 16:46

So i want to add image bars to the side of the screen. Im planning on recording some pokemon gameplay on my 3DS and wanted to add what is in my party and my money count and stuff on the sides of the video. Is that possible. I think its called Masking im not too sure though 🙄

Title effect after image key effect after video in your nodal routing. Key frame as needed.
