

Building a Free Library of Images for Everyone

Posted by Eric Matyas - 18 Jan 2017 09:15

Hi everyone,

I've been building a library of images that you are welcome to freely use in your projects. They might be useful under titles, for visual effects or anything else you can think of. They are all original...all my own work. All I ask is to be attributed as indicated on my homepage:

soundimage.org/

The images are on my "TXR" pages (for "Textures.")

I'm adding new ones all the time, so be sure to check back often. I sincerely hope that some of them are useful. Any and all constructive feedback is welcome and always appreciated. 🙏

All the best,

Eric
