

Video Length

Hello, I use Lightworks to edit my youtube videos as I find it easiest fastest and overall better. Though theres one thing I have a problem with, I'm not sure if it's something that happens if you don't buy the full version but its just a little annoying for me. I record for hours sometimes because that's how long it takes to get a good amount of gameplay out of recording but it's annoying when I try to import the video and it shortens it to 20 minutes. Is this a bug? If not then if I buy the full version will it extend this? Thanks!
