

Is it possible to save a project and start it on another computer?

Posted by Kysm8 - 04 Feb 2018 10:57

I would like to be able to save a project and open it on my laptop. How is this done?

=====

You can export the project as an archive, then open that on the other computer

In pictures (this shows V14.1 beta)

1. On the source system, make a backup of your project, include all media:

2. On the target (the laptop), use "Restore an archived project.." from Project Browser:

=====
