Welcome to the forum.

To ensure that you're following the correct procedures, please check P9 to 13 in the V14.5 Installation and Activation Guide found in downloads > documentation.

Also check out the video tutorial:

Hello,

Under 'Download.Documentation' on top of this page you'll find the '14.5 Installation and Activation Guide'. If you should encounter trouble with activation, online or offline, you may find help under 'Help.Activation Troubleshooting'.

If the documentation doesn't bring you any further, come back and explain, in some detail please, what your problem is.
