

## Failed Download

Posted by aman501 - 04 Jun 2019 20:11

---

Sorry if this is the wrong place to put this, but I just tried to download the free version for install, and the link seems broken as it failed a number of times.

I am trying to download the 64bit windows version

Thanks

Hello,

I've just downloaded all available versions and had no problems, at least here in Europe.

Please try again downloading from this page: [www.lwks.com/index.php?option=com\\_lwks&view=download&Itemid=206](http://www.lwks.com/index.php?option=com_lwks&view=download&Itemid=206)

Dang, well I'm in the states (Florida) and still having some trouble finding a good link to 64bit. It keeps saying the connection timed out.

Could be a server temporarily unavailable, try again later this day.

Just tried here in Australia. Downloaded OK here too. I have posted a link to this in the Website - Shop & Downloads forum. If you wish to add to the thread you'll find it at [www.lwks.com/index.php?option=com\\_kunena&func=view&catid=40&id=198843&Itemid=81](http://www.lwks.com/index.php?option=com_kunena&func=view&catid=40&id=198843&Itemid=81)

.

No Problem here in the Great White North. Took a whole 10 seconds.

Just tried here in USA \_ Downloaded Okay \_

\_ the 64bit by the way\_

Also, as you may have seen, the servers have been checked are OK. Are you still having problems?
