Is there a way to know when my monthly pro license will expire. It would be nice to know the time if possible rather than just the date. It expires tomorrow but can I get anymore specific info regarding when it will. Will it be 00:00 GMT on the day? Specific details for expiry would be appreciated. Anyone can help me? Thank you

If I were a gambling man, I'd wager the same hour you purchased it a month ago.

Thanks. I think i might have it till the time also. I wandered if it would occur as soon as the day starts but I'll be alright now. It's just I had something I had to do still and wasn't sure if i'd have the time to do it in. It's done now though so all is good. Thanks for the reply again.
