

audio not syncing when i play the video

Posted by DAAADBERG - 01 Sep 2019 16:54

whenever i play the video i've tried to edit, the video and the timer plays instantly but the audio takes at least a second to load properly and play, making it extremely difficult to select a time down to the milisecond and to find keyframes, and i have no idea how to fix this

Welcome to the forum.

Unfortunately, you're not providing enough information, please follow the directions in this sticky, so that users can see the technical details of your video.

www.lwks.com/index.php?option=com_kunena&func=view&catid=23&id=66072&Itemid=81

Also, the specification of your computer would be helpful.
