

RayGoesTo: Jungle, Jaguars, and an Ancient Maya ruin

Posted by thesunray - 10 Jan 2020 15:32

Would love some views/shares/subscribes at my channel RayGoesTo -- both of the videos I've done entirely with Lightworks, and while I'm more a travel writer/photographer than a video content producer, really found the program a huge help. And the only Linux option that's made sense to me.
