

Broken links to the official V14 Quickstart Guide

Posted by hugly - 31 Mar 2021 06:01

All links to the official V14 Quickstart Guide posted in Editshare times are broken. A forum search for "Zucj0WaNLko" by any date reveals 200 of those.

Do the forum moderators or administrators have tools to correct this all at once?

I don't, unless the Lightworks staff do.

I just update the link as I come across the old links.
