

## FAQ page updated

Posted by Site Admin - 20 May 2014 08:54

---

The FAQ page gives answers to common questions: <http://www.lwks.com/faq>

We've just updated - the categories have now been restructured and there are a few new entries, such as 'how to update Lightworks'.

To use the page, type a likely word or phrase into the Search field - it will display the most relevant answers, much the same as searching on the forum.

We'll be adding to the resource as we progress. If you have a suggestion for a topic for inclusion, please let us know:
