

## Lightworks has teamed-up with Canonical to bring you an exciting opportunity!

Posted by Matt Sandford - 08 Jan 2015 15:57

---

Over the next few weeks, we're looking for an Editor to share their Lightworks experience on Ubuntu - the selected participant will have their story on show, to millions around the world.

If Ubuntu is your operating system of choice and you are currently cutting or have cut some exciting footage on Lightworks (Feature Film, Documentary, Sport or Music Video, etc) we would love to hear from you!

To get in touch with us simply email:

This e-mail address is being protected from spambots. You need JavaScript enabled to view it

giving us some insight into the projects you have been working on and how Lightworks and Ubuntu works for you.

The lucky user(s) will be selected over the next few weeks and will be contacted by the team to represent Lightworks and Canonical.

As a thank you to each of you for taking the time to contact us, we will be issuing voucher codes for Lightworks Pro. We look forward to hearing from you about Lightworks on Ubuntu!

Best wishes,

The Lightworks Team
