

## User Generated LUTs (Look Up Table files) / Links

Posted by lghtwrks - 24 May 2015 20:44

---

[LUTS since LWKS 12.5+]

C:\Users\Public\Documents\Lightworks\LUTs

(%PUBLIC%\Documents\Lightworks\LUTs)

A thread for user generated LUTs (or ones which (of course) are compatible with LWKS (or can be converted)) ( [^1](#) )

greetz

simon

\* adding a &quot;project&quot; LUT:

[www.dma.ufg.ac.at/assets/24790/intern/add\\_project\\_lut\\_s.mp4](http://www.dma.ufg.ac.at/assets/24790/intern/add_project_lut_s.mp4)

+

\* adding a clip based LUT

[see attached img]

old style:

- edit a video-reference frame
- generate a pattern: &quot;convert hald:16 hald16\_gen\_src\_lut.png&quot;
- use reference frame manipulation with the pattern file
- use pattern file for all other images, eg.

&quot;convert src0001.dpx hald16\_gen\_FIN\_lut.png -hald-clut -depth 16 final0001.png&quot;

yes.

Fine. Thanks!

change your tag line to &quot;Thinking is good, doing is better.&quot;

thx.

- it's now &quot;It's better to travel well than to arrive... &quot;

---

whatever
