

My first Lightworks video - New Zealand roadtrip.

Posted by johansoderling - 11 Jun 2015 18:20

Hello guys!

This is my first video i made in lightworks, very simpel edit from my roadtrip in new zealand.

Im going to make some more movies from my trip, so if i can get some critics to make it better i relly appreciate that!

Here is the movie:

The video won't play. It says there is content from SME and it has been blocked on copyright grounds. I assume it is the music.

There are plenty of sites to get free music to use for your videos. One of the sites with lots of music is Jamendo.com. I have music under the Creative Common Attribute license for several years. Just give credit to the artist for what you use.

I saw that SME have blocked it in some countries!

Thanks for the tip!
