Pond5

Stand out from the crowd with amazing royalty-free HD & 4k video

If it's inspiring imagery you require then Pond5 provides the worlds largest online library of royalty-free HD and 4k stock video which can be accessed directly from the Lightworks timeline. Search for video content based on thousands of themes, location or styles, stream Lo-Res proxy files and insert them directly into your sequence to check what works in realtime. Once you're happy with your video choice, purchase and download the full quality content in the background for immediate availability within your project.

It's simple and safe to set up a Pond5 account, and for projects where you need lots of content your budget will go further with credit packs at discounted prices. Once your account is set you instantly have access to over 6 million 4K and HD royalty-free stock video clips and photos, including aerals and much, much more. The only limit to what you can create is your imagination...

**Check out how your content can stand out from the crowd with
Lightworks + Pond5:**
